

SAFETY DATA SHEET

1. IDENTIFICATION OF THE PREPARATION AND COMPANY

Products: BITUMINOUS ROOFING MEMBRANES

Product Use: Roofing membranes

2. COMPOSITION/INFORMATION ON INGREDIENTS

The products in the range consist of a reinforcing base material coated with bitumen and a surface finish. The base materials include polyester, glass/polyester and glass fibres in sheet form, some used in conjunction with aluminium foil. The bitumen coating may contain mineral filler and/or synthetic polymers. The Ultra prevENT and FireBLOC cap sheets have an inert graphite coating on the upper surface of the base carrier and the FireBLOC Vapour Control layers have a fire retardant modified bitumen coating. The surface finish may be sand, talc, mineral granules or polymeric film.

The products are not classified as dangerous under the Chemicals (Hazard Information and Packaging for Supply) Regulations 2004 (CHIP 4).

3. HAZARDS IDENTIFICATION

No chemical hazards identified in the normal use of the product.

4. FIRST-AID MEASURES

Not applicable

5. FIRE-FIGHTING MEASURES

Standard bitumen based roofing membranes are combustible and release dense black smoke when they burn. The Ultra prevENT and FireBLOC cap sheets have an inert graphite coating on the upper surface of the base carrier, which when installed produces a significant reduction in the capacity of the product to burn and reduces smoke emission in a fire situation. In the event of a fire, wear protective clothing. Extinguish fire with foam, dry powder, water fog, sand or earth. Do not use water jet.

6. ACCIDENTAL RELEASE MEASURES

Not applicable.

7. HANDLING AND STORAGE

No specific chemical safety measures are required

8. EXPOSURE CONTROLS/PERSONAL PROTECTION

No specific chemical safety measures are required

9. PHYSICAL AND CHEMICAL PROPERTIES

The intended use of these products is as roofing or waterproofing membranes. Additional product information including details of physical characteristics and application is available in the product technical literature.

10. STABILITY AND REACTIVITY

No known hazard.

11. TOXICOLOGICAL INFORMATION

No known hazard.

12. ECOLOGICAL INFORMATION

No data available.

13. DISPOSAL CONSIDERATIONS

Dispose of waste material in accordance with national and local regulations.

14. TRANSPORT INFORMATION

Not classified for Road, Rail, Sea or Air Transport.

15. REGULATORY INFORMATION

Not classified as dangerous under the Chemicals (Hazard Information and Packaging for Supply) Regulations 2009 (CHIP 4).

16. OTHER INFORMATION

Revision Issue No. 8: Date Oct 2009

The information contained in this data sheet does not constitute an assessment of workplace risk as required by current legislation. Whilst every care is taken to see that the information is correct and up to date, it is not intended to form part of any contract or give rise to any collateral liability, which is hereby specifically excluded.
